1 Nature of operations and going concern

American Creek Resources Ltd. (the "Company") was incorporated under the *British Columbia Business Corporations Act* on February 12, 2004 and continued into Alberta on August 26, 2005. On December 11, 2018, the Company continued again into British Columbia. The Company is engaged in the exploration and development of mineral properties in Canada and has not yet determined whether its properties contain ore reserves that are economically recoverable.

The head office and principal address of the Company is 92 – 2nd Avenue W, Cardston, AB, Canada, T0K 0K0. The Company's registered address and records office is 890 West Pender St., Suite 600, Vancouver, British Columbia, Canada, V6C 1J8.

The Company's primary listing is on the TSX Venture Exchange under the ticker symbol "AMK".

Going concern

These interim financial statements have been prepared using International Financial Reporting Standards ("IFRS") as they apply to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of operations. The Company is in the exploration stage and has not generated revenue from operations. The Company generated a net income of $542,858 during the period ended June 30, 2021 (2020 – net loss of $547,774), generated negative cash flows from operating activities of $607,065 (2020 – $488,141) and, as of that date the Company's deficit was $51,063,097 (2020 – $39,921,123) and working capital was $2,004,414 (2020 – $8,514,360). As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. These factors indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern, and accordingly, the appropriateness of the use of accounting principles applicable to a going concern.

Management intends to finance operating costs over the next twelve months with existing working capital. Should additional capital be required to fund exploration and/or acquire new projects, other financing alternatives such as private placements of common stock will be considered. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

These interim financial statements do not reflect the adjustments to the carrying values and classifications of assets and liabilities, or to the reported expenses that would be necessary if the Company were unable to realise its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

2 Basis of preparation

Statement of compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34").

These interim unaudited condensed financial statements do not include all of the information required for full annual financial statements and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this unaudited condensed interim financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2020. The effects of the adoption of new and amended IFRS pronouncements have been disclosed below in these condensed interim financial statements.

The accounting policies and methods of application applied by the Company in these condensed interim financial statements are the same as those applied in the Company's most recent annual financial statements for the year ended December 31, 2020.

These financial statements were approved for issuance by the Company's board of directors ("Board") on August 26, 2021.

These financial statements have been prepared on a historical cost basis except as disclosed in the significant accounting policies in note 3. They are presented in Canadian dollars which is the Company's functional currency.

3 Significant accounting policies

The accounting policies followed in these unaudited financial statements have been applied consistently to all periods presented in these financial statements.

New Standards, Amendments and Interpretations

New standards and interpretations adopted

Amendments to IFRS 3, Business Combinations (effective January 1, 2020) assist in determining whether a transaction should be accounted for as a business combination or an asset acquisition. It amends the definition of a business to include an input and a substantive process that together significantly contribute to the ability to create goods and services provided to customers, generating investment and other income, and it excludes returns in the form of lower costs and other economic benefits. The Company does not expect this standard to impact its financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's interim financial statements.

Electrum Property, British Columbia, Canada

The Electrum property is located north of Stewart, British Columbia. The claims were acquired via an option agreement which all terms and conditions have been completed through total cash payments of $210,000 and 2,500,000 common shares issued with fair value ranging from $0.12 to $0.75 per share. This property is subject to a 2% Net Smelter Royalty ("NSR"). The Company may purchase the 2% NSR at any time for $1,000,000. In 2016, the Company recorded an impairment on the value of the Electrum property in the amount of $4,545,601. The Company then disposed of a 60% interest in the property for net cash proceeds of $493,999 and 1,000,000 common shares of the purchaser with a fair value of $1.18 under the terms of a joint venture agreement.

During the year ended December 31, 2020, the Company disposed of its remaining 40% interest in the Electrum property including the Slippery Willow claims for proceeds of $250,000 cash and 1,400,000 shares of Tudor Gold Corp. (note 8). The value of the shares at the date of the agreement was $1.49 per share, which resulted in a gain on disposal totaling $1,263,769. The Slippery Willow property located adjacent to the Company's Electrum property was also included as part of the disposition.

Treaty Creek Property, British Columbia, Canada

The Treaty Creek property is located northeast of Stewart, British Columbia. In 2009, the Company completed the requirements as set out in the option agreement to earn a 51% interest in the property by issuing 100,000 common shares with a fair value ranging from of $0.23 to $0.24 per share and by incurring the balance of aggregate exploration expenditures in excess of $5,000,000. Each of the claims that make up the property is subject to either a 1% or 2% NSR royalty on the Company's ownership interest only. The Company has the option to purchase the royalty interests for $1,500,000 with the exception of 0.5% which can not be purchased and will remain on the claims. In 2016, an impairment of $6,548,376 on the value of the Treaty Creek property was recorded. The Company then disposed of 31% of its 51% interest in the property for 500,000 common shares of the purchaser with a fair value of $1.18 per share. The Company transferred 25% of the 500,000 common shares of the purchaser to the NSR holders fulfilling this obligation under the agreement. The Company maintains a 20% interest in the property and is not obligated to contribute towards costs until a production notice is given by the operator of the property. No exploration costs were incurred during the current or prior period due to the Company's carried interest terms.

Gold Hill Property, British Columbia, Canada

The Gold Hill property is located near Fort Steele, British Columbia and was purchased on March 9, 2015. Consideration paid for the Gold Hill property consisted of 3,734,444 shares issued to the vendor and 373,444 shares issued as an arms-length finder's fee with a fair value of $0.09 per share. Exploration costs in the amount of $Nil (2020 - $17,016) were incurred during the current period.

Dunwell Property, British Columbia, Canada

The Dunwell property is a combination of three acquired properties and is located near Stewart, British Columbia. The first of the three properties, the Silvershot property was acquired through staking in the amount of $412. The second property, the Dunwell property, was purchased through the acquisition of a private company which holds 100% interest in the property by issuing 7,000,000 shares for fair value of $490,000. The property was

(expressed in Canadian dollars)

subsequently transferred into the Company's name. The third property, the Bear River property, was purchased by issuing 800,000 shares with fair value of $52,000.

During the year ended December 31, 2020, the Company acquired 45 crown grants overlapping or adjoining the current exploration claims by issuing 3,000,000 common shares with fair value of $210,000 (note 11) and $50,000 cash. Total acquisition costs for the claims also included filing fees of $1,475. Exploration costs in the amount of $Nil (2020 - $257,018) were also incurred.

14 Financial Instruments

Fair value

IFRS 7 establishes a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
Level 3 – inputs for the asset or liability that are not based on observable market data.

As at June 30, 2021, the Company's financial instruments are comprised of cash, marketable securities, reclamation bonds and accounts payable. The carrying value of cash, accounts payable and reclamation bonds approximate their fair values due to the relatively short periods to maturity of these financial instruments.

(expressed in Canadian dollars)

Risk management

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of potential loss to the Company if a customer or counterparty to a financial instrument fails to meets its contractual obligations. The Company's credit risk is limited to the carrying amount on the statement of financial position and arises from the Company's cash, receivables and reclamation bonds.

The Company's cash is held through a Canadian chartered bank which is high-credit quality financial institution. The Company's receivables primarily consist of harmonized sales tax rebates due from the Government of Canada which are all current. The Company believes credit risk to be insignificant.

Liquidity risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2021, the Company had a cash balance of $2,007,263 and short-term receivables of $12,777 to settle current liabilities of $78,485. The Company forecasts its cash needs on a regular basis and seeks additional financing based on those forecasts. There can be no assurance the Company will be able to obtain required financing in the future on acceptable terms. Since inception, the Company has financed its cash requirements primarily through issuance of common shares. All of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. See note 1 for further discussion on going concern and its impact on liquidity. The Company believes liquidity risk to be moderate.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates and foreign exchange rates.

a) Interest rate risk

   The Company's current policy is to hold deposits in highly rated banking institutions. Interest on short and long-term debt arrangements are fixed and are specifically disclosed. Interest earned is negligible and therefore interest rate risk is low.

(expressed in Canadian dollars)

b) Foreign currency rate risk

The Company is domiciled in Canada and its capital is raised in Canadian dollars and does not conduct regular business in any foreign country. Therefore, foreign currency rate risk is considered low.

15 Capital management

The Company's working capital as at June 30, 2021 was $2,004,414 (2020 – $8,514,360). The Company's capital management objectives, policies and processes have not been changed over the periods presented. The Company is not subject to any externally imposed capital requirements.

The Company manages its cash and common shares as capital. The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the on-going business objectives including, but not limited to pursuing the exploration of its exploration and evaluation assets, funding of future growth opportunities, and pursuit of new acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company manages its capital structure by issuing new shares, adjusting capital spending or disposing of assets. In addition, management of the Company's capital structure is facilitated through its financial and operational forecasting processes. The forecast of the Company's future cash flows is based on estimates of commodity prices, forecast capital and operating expenditures, and other investing and financing activities or further discussed in note 1 going concern. The forecast is regularly updated based on new commodity prices and other changes, which the Company views as critical in the current environment.

16 Segmented information

The Company operates in one reportable operating segment, being the exploration and development of exploration and evaluation assets in Canada.

17 Commitments

Amended NSR Agreement

On April 13, 2016, the Company issued 15,000,000 common shares at $0.06 per share under an amended agreement with arms length third parties that holds a NSR related to the Company's interest in the Treaty Creek property located in NW British Columbia (note 9). The amended agreement reduces the prior $6 million payment obligation which was potentially triggered if the Company reduced its 51% interest in the property, or granted access for development and tunnel construction.

(expressed in Canadian dollars)

Additional terms of the amended agreement include:

a) The NSR holders will hold a 2% NSR on certain Treaty Creek property mineral tenures ("Group I") and a 1% NSR on the remaining Treaty Creek mineral tenures ("Group II"). The NSR interests apply only to the Company's interest in the Treaty Creek property. Within 30 days of a Treaty Creek property feasibility study being completed, the NSR holders will be paid an aggregate sum of $1,500,000 in order for the Company to collectively buy out 0.75% of the Group I NSR and 0.25% of the Group II NSR. At any time the Company may buy out a further 0.75% of the Group I and 0.25% of the Group II NSR for the aggregate sum of $1,500,000. The NSR holders will retain a 0.5% NSR on the Group I and Group II mineral tenures.

b) The NSR holders were entitled to 25% of the purchase price the Company received in 2016 from the Company's sale of a 31% interest in the Treaty Creek property to an arm's-length purchaser. Consequently, the Company transferred to the NSR Holders 125,000 of the 500,000 purchaser shares received by the Company from such sale, thereby fully fulfilling this obligation under the amended agreement (note 9).

c) The Company will pay the NSR holders 25% of any consideration the Company may receive from any non-governmental party for access, easement or right of way over, on, under or through any part of the Treaty Creek property for a mining infrastructure purpose, or fees for the use of the Company's own infrastructure facilities.

d) The Company will pay the NSR holders 25% of any compensation proceeds the Company may receive from any governmental or quasi-governmental agency for the loss of any rights resulting from the expropriation of access, easement or right of way over, on, under or through any part of the Treaty Creek property for a mining infrastructure purpose.

Mineral Property Acquisitions

During the year ended December 31, 2016, the Company entered into four option agreements to acquire a 100% interest in the Ample Goldmax Property, the Glitter King Property and the Silverside Property. The Company satisfied some of the obligations under the agreement, however, others remained outstanding and were in default. The original agreement was replaced under by a new agreement executed on September 22, 2020.

Outstanding commitments related to the Ample Goldmax, Glitter King and Silverside exploration and evaluation assets have been assumed by Stinger Resources Inc. as part of the plan of arrangement agreement.

(expressed in Canadian dollars)

The terms of each of the current agreements that were assumed by Stinger Resources Inc. are disclosed in their financial statement commitments.

18 Plan of arrangement

On February 25, 2021 a plan of arrangement spin out transaction was completed by the Company.

The amended and restated arrangement agreement dated October 2, 2020, entered into between the Company and Stinger (a wholly owned subsidiary of the Company), was approved by the shareholders of the Company on December 3, 2020, by a Final Order granted by the Supreme Court of British Columbia on December 7, 2020, in accordance with Part 9 of the Business Corporations Act (British Columbia), and accepted by the TSX Venture Exchange.

Pursuant to the Arrangement Agreement and on the Effective Date:

a) The Company transferred the following assets to Stinger in consideration for 45,000,389 common shares of Stinger (the "Stinger Shares"):

   i) the three (3) mineral properties commonly referred to as the Dunwell Property, the Gold Hill Property and the D1 McBride Property;

   ii) optioned interests in the 3 mineral properties commonly referred to as the Silver Side Property, the Ample Goldmax Property and the Glitter King Property;

   iii) 1,400,499 common shares of Tudor Gold Corp;

   iv) $2,500,000 cash;

   v) the right to receive additional cash in the event previously issued share purchase warrants of the Company are exercised after the Effective Date;

   vi) the real property located at #92 - 2nd Avenue West, Cardston, Alberta, and all leasehold improvements related thereto and office furniture, computers and other equipment therein; and

   vii) vehicles, an assortment of exploration equipment.

b) the existing common shares of the Company were re-designated as Class A Shares (the "AMK Class A Shares") and the Company created a new class of common shares known as the "New AMK Common Shares";

c) each AMK Class A Share was exchanged for one New AMK Common Share and 0.11324 of one Stinger Share;

d) the AMK Class A Shares were cancelled;

(expressed in Canadian dollars)

e) all outstanding of the Company warrants were adjusted to allow holders to acquire, upon exercise, one New AMK Common Share and 0.11324 of one Stinger Share, such that an aggregate of 4,636,030 Stinger Shares may be issued if all outstanding warrants are exercised;

f) all holders of the outstanding options of the Company received 0.11324 of one Stinger option with whole option entitling the holder therefore to purchase one Stinger Share, such that an aggregate of 3,782,213 Stinger Shares may be issued if all such options are exercised;

g) Stinger became a reporting issuer in British Columbia, Alberta, Saskatchewan and Ontario; and

h) the Company retained its interests in the Treaty Creek Property and the Austruck-Bonanza Property and approximately $2 million cash for working capital, and remains listed on the TSXV and continues to trade under the trading symbol "AMK" as a junior exploration company.

Following the plan of arrangement transaction, there were amounts outstanding that were paid and received by the Company on behalf of the Stinger. The net amount resulted in a short-term loan payable amount of $58,108. This amount has no set payment terms and bears no interest.
